# WEATHER

## NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

### **Eureka Weather:**

The stubborn trough over northwest California will promote showers and thunderstorms for one more day across the interior. Activity will begin to subside tonight and end Tuesday as high pressure begins to build back over the eastern Pacific.

### **Medford Weather:**

Isolated afternoon and evening thunderstorms will redevelop Monday and Tuesday, primarily over the Cascades and Siskiyou's. Coverage will decrease each day and no thunderstorms will develop Wednesday into the weekend.

### **Reno Weather:**

A weak trough and residual moisture over California will allow for isolated afternoon thunderstorms through Tuesday, with high temperatures remaining slightly below average. Temperatures will warm to around average with dry conditions for mid to late week.

### **San Francisco Weather:**

A dry, but persistent upper level trough near the west coast will maintain cooler than normal daytime temperatures across inland areas through Tuesday. Warmer conditions are forecast for Wednesday and Thursday and then a cooling trend as we had into next weekend.

# **WEATHER**

## **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

### **Sacramento Weather:**

Dry and seasonable temperatures are expected over the next few days. Warmer conditions will arrive into the mid and later part of the week.

### **Hanford Weather:**

Central California will see below normal temperatures and dry conditions due to a southwest flow aloft. As the flow aloft weakens, a warming trend with continued drying will exist for most of next week.

## **SOUTHERN CALIFORNIA:**

### **Los Angeles Weather:**

An upper level trough of low pressure will persist just off the west coast for much of the week. Areas of night through morning low clouds and fog are expected across the coastal plain and in some valley locations through the week. Daytime temperatures will be slightly below normal for the most part. Mid and high level moisture may move in next weekend bringing a slight chance of showers and thunderstorms to much of the region.

### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

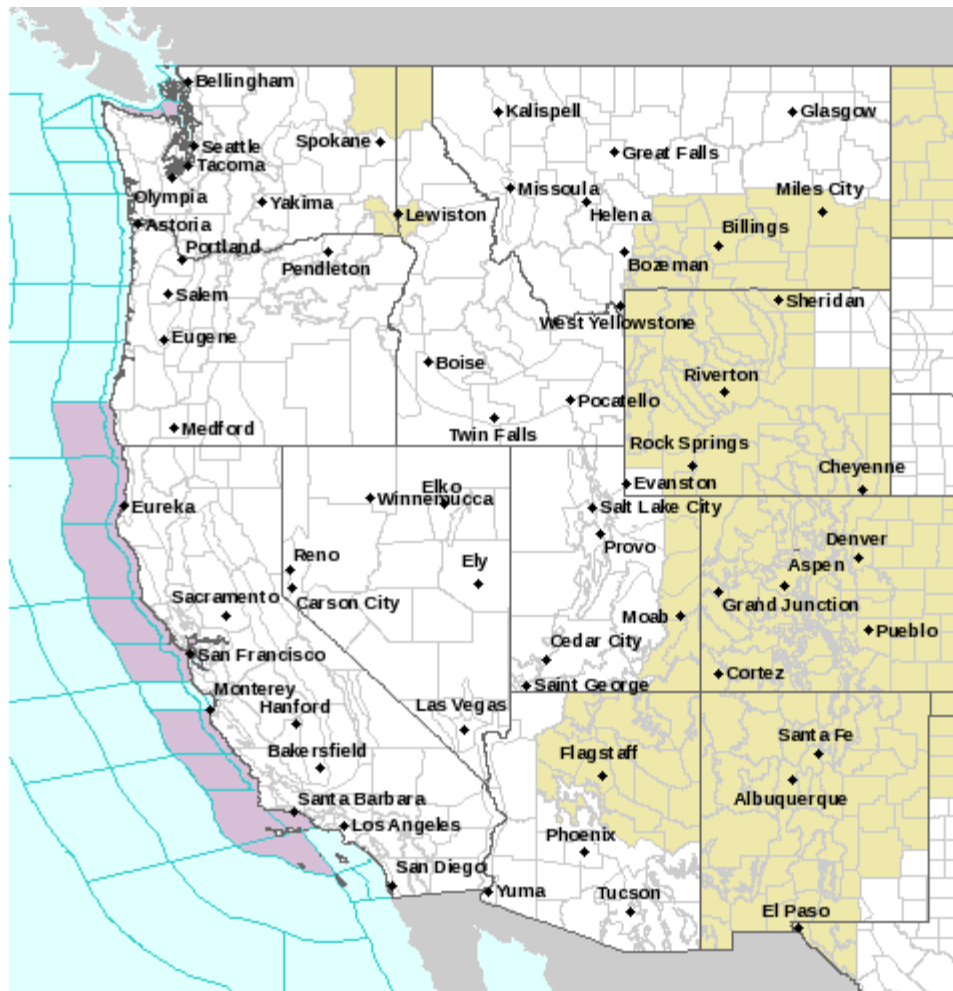

Through Thursday, low pressure aloft near the California coast will maintain dry weather and onshore flow with slightly below average temperatures and a moderate marine layer depth with areas of night and morning coastal low clouds and fog extending into portions of the valleys at times. By the weekend, an influx of tropical moisture will bring more clouds, warmer nights, and a chance of showers and thunderstorms, especially over the mountains and deserts.

### **Southeast California Weather:**

Little change in the weather pattern is forecast the next several days. Dry weather with near normal temperatures are expected in southeast California. High temperatures will stay near seasonal normals through the latter part of the next work week. Moisture will spread into the area by this weekend, resulting in an increased threat of showers and thunderstorms.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC. Cal OES Director Mark Ghilarducci will hold a statewide OA drought call on 06/29/15 at 1000 hours.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought
